1.3 lbs (589gm)	1.8 lbs (816gm)	1.25 lbs (566gm)	1.32 lbs (596gm)	.60 lbs (272gm)	.63 lbs (285gm)
Removable mounting with adjustable positioning		Stationary mounting with adjustable positioning		Stationary mounting with fixed positioning	
				No Adjustments	Width: +/- 1in (2.54cm)

Angle: 20° | Depth: 1.25in (31.75cm) | Width: +/- 1in (2.54cm)

For folding frame chair users that require angle, depth and width adjustment.

Product Description

The idea behind the design of the Q-Back is to allow for seamless integration of the ADI back support line to the Quantum TB3 Power Positioning System. This com-bination will grant the consumer an array of back support height, width, depth and profile options for their multifunction-al Quantum TB3 System, resulting in a highly sophisticated seating package.
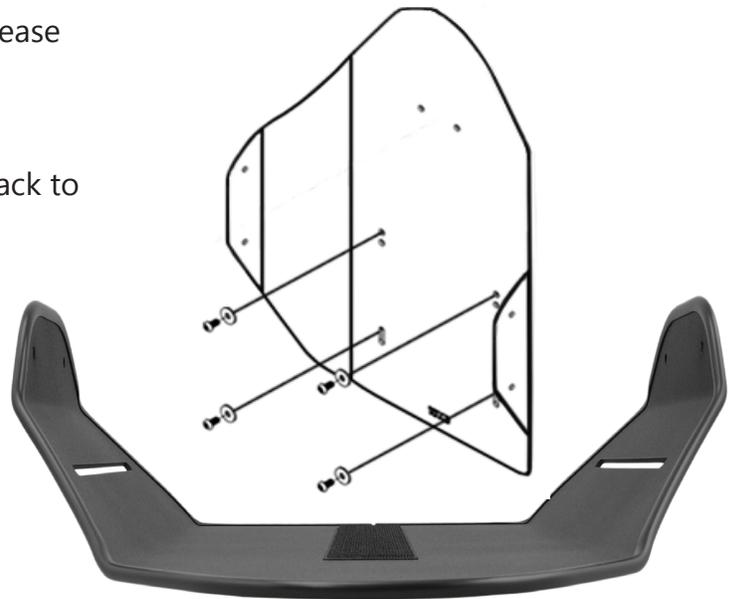

Features

- The new Q-Back includes a high quali-ty Lycra cover to complement the an-ti-shear features of the TB3 system, as well as offering water resistance and breathability.
- The hole pattern on the Q-Back is designed for ease of installation to the TB3 back plate as well as offering height adjustability in .5" increments equaling a total of 3.5" of height adjustment.
- Additional slots have been included on the Q-Back to allow for integration of Stealth laterals and positioning straps.
- Pre-drilled holes for mounting head-rests.
- New XX-Tall (22") height option.

Sizes

- Heights – Standard (16"), Tall (18"), X-Tall (20"), XX-Tall (22")
- Widths – 16", 18", 20"
- Contours – Active (2.5"), Deep (4"), Extra Deep (6")
- Profiles – AL Series (Scapular Cut-Out), AFT Series (Flat Top)
- Selected sizes are Indent Only
- Custom options available

Please note that all backs (except the Carbon Fibre series) come standard with Quick Release Mounting Hardware. Carbon Fibre backs come with the Fixed Elite Mounting Hardware. Alternative hardware can be purchased separately.

Easy flush mouting

| Pre-drilled holes for headrest | Flush mounting | 3.5" in height adjustment | High quality Lycra cover |
