As Unique As A Fingerprint

The infinitely configurable BeMe, is a revolution in supportive seating that puts a child's development and experience at the heart of its design.

Empowering a child to simply BeMe.

Building on decades of Leckey clinical and design expertise and responding to detailed feedback from therapists and carers, BeMe is a highly personalised seating system, available in three sizes, and spec'd to perfection. Unique modularity provides easy configurability to fit the exact needs of the child as they change and grow.

Promoting inclusivity in all day-to-day activities through good posture, BeMe encourages confidence and independence - empowering a child's beaming smile to shine through.

**BeMe delivers
posture, function
and comfort
without
compromise**

A Revolution in Seating

BeMe is a modular seating system comprising three sizes with three seat options: contoured, basic and split and three back supports: basic, moderate and complex to suit every need.

Click and Switch with Ease

Total ease of use and compatibility are at the heart of BeMe's responsive design

It's surprisingly simple to find the perfect fit with BeMe. It is cleverly designed so that you can configure the right support quickly and easily.

- Configuring BeMe is a snap as parts can be easily and intuitively interchanged
- Clinical adjustments, including seat depth and back height, can be made while the child is seated
- Armrest, femoral guides and pommels can be quickly released making transfers easier than ever

Meet Imteyaz

“BeMe has made a massive difference in accommodating Imteyaz’s needs. She is sitting much better, her tone has reduced and she is able to interact with her peers.”

For more on Imteyaz’s case story, visit leckey.com/products/BeMe

- 1 Easily adjustable headrest for flat, contoured, or cradle positions
- 2 Flexible neoprene butterfly harnesses provide freedom of movement and correct postural alignment
- 3 Optional air-controlled dynamic backrest which regulates the resistance as a child extends and is speed adjustable as the child returns
- 4 Slim-line, width, height, depth and angle adjustable lateral chest supports allow the chair to gently hug and child for extra security
- 5 Unique patented pelvic cradle for stability and optimum positioning

Revolutionary seating with world's first truly growable contoured cushion

BeMe's child-centred ethos inspired Leckey to create the first **genuinely growable** contoured cushion.

This innovative growable cushion, with specially developed high-stretch foam and fabric, is contoured to **maximise pelvic stability and comfort** as the child changes, grows and develops.

This breakthrough in support technology envelops the child for immersive comfortable positioning, improving pressure distribution and enhancing function.

By reducing the need for hardware like pommels and hip guides, BeMe allows the child to take centre stage without compromising support.

- ✓ Unique growability through ground-breaking design
- ✓ Perfect fit without compromising pelvic positioning
- ✓ Enhanced pressure distribution

Seat

	Small	Medium	Large	Medium Long	Large Long
Seat Depth (mm)	170*-325	275-390	350-475	325-440	400-525
