iAccess Enhanced Controls

The Q-Logic 3 enhanced display unit features a full colour LCD display, an industry standard D-9 connector to suit the integration with any aftermarket joystick or specialty control device, two 3.5 mm jack plugs allowing the fitment of auxiliary switches.

Connectivity is fully catered for with the Q-Logic 3 Enhanced Display Unit.

Bluetooth access to computer, tablet and phone functions including iOS and Android
 Infrared remote control to access devices such as TV, Stereo, Sky TV, home automation

Bib Mounted Chin Control (requires EDU or SCIM)

SPIDCH-M*

Stealth iDrive Control Harness Medium
This is a chin control harness and requires a mini proportional joystick.

An orbital compression mount and Stealth's proven highly adjustable, link style hardware, along with the addition of the track system allows for unmatched targeted positioning. This will implement the most optimal driving experience for the user.

With infinite positioning possibilities as well as a variety of switch mounting options that will attach to the collar, the Stealth i-Drive Control Harness is the RIGHT choice for any lip, cheek, or chin driver!

The quick release, swing away, padded collar allows for the ability to remove the device from the right or the left side. The removable collar design also allows height adjustability on the collar frame independent of the adjustable link hardware.

The double padded collar consists of Closed Cell and SunMate foams. SunMate foam was originally designed for the NASA space program and provides a gentle touch for extended periods of time.

SPIDPMP-9-FT

Stealth Mini Proportional Joystick

Stealth iDrive Control Harness Medium
This is a chin control harness and requires a mini proportional joystick.

Twister Switches (Flexi)*
