FAQ

How to clean your Ribcap?

We spent a lot of time, sourcing the right materials to ensure that you can easily wash your Ribcap. We recommend that you use a mild soap and warm water in a basin or sink to wash your Ribcap - it's made from high-quality materials, so your hat will stay in great condition, even after multiple washes.

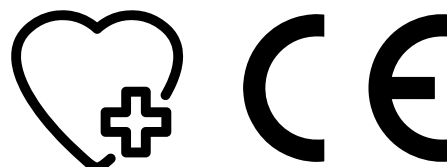

Trusted by Experts

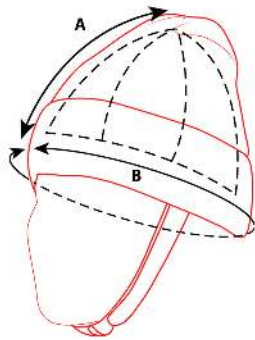

We tested all Ribcaps rigorously, using BSI's internationally recognized standards, it is an independent, leading test facility. Daily helmets such as Ribcap, do not have a formal certification, however, we're recognized not only by Neuro-scientific institutions around the world, as well as health care organizations such as the UK'S NHS, but we're also recommended by doctors and nurses all over the world
